Featured Whitepaper:
"Why Customers Choose The OptimalCloud™ For Cloud Based SSO"

The OptimalCloud can be a private or public federated cloud service that provides multi-factor and mobile authentication and authorization from any data store. This whitepaper will outline some of the reasons that our customers have selected The OptimalCloud over other solutions.

Blog of the Month:
"Does IoT Have an Identity Management Problem?"

There are a wide range of consumer devices that have no identity management. Privacy gaps in identity management can be significant, but there are different paths you can take that will include a combination of multi-factor authentication and single sign-on that use systems to authenticate the user for each request.
