## Optimal Authenticator

With the Optimal Authenticator, quickly and securely verify your identity for access to all of your applications using two-factor authentication.

Download the app now on the Google and Apple app stores.

## [Initiating Steps On The Path To GDPR Compliance](#)

The first step to compliance is to understand your data. How can you protect something if you don't know that you have it? Not all data is equal, so don't treat it as such.

## [Blog: Security Awareness Training](#)

Hackers have a wide variety of tools at their disposal to help them access private data that belongs to your company or

clients. It's important to be aware of the major areas of susceptibility in order to safeguard the vital information that exists in your company's network and it's important to make sure your employees are aware as well.
